## Brain Injury Program | 2022 Outcome Report

# GAYLORD'S BRAIN INJURY PROGRAM:

Our team of highly experienced providers uses an array of resources, including **advanced technology**, to offer each patient an **individualized approach to treatment**.

Our inpatient and outpatient programs are designed to support patients at each stage of their recovery, helping them adapt to their post-injury lives, **maximize their independence** and reenter their communities.

Since every brain injury is different, our **interdisciplinary team will customize a program** based on the patient's specific needs.

# ABOUT GAYLORD HOSPITAL:

A nonprofit, 137-bed specialty hospital, also known as a long-term acute care hospital, Gaylord specializes in medical management and rehabilitation for patients who have experienced an acute illness or a traumatic accident.

Gaylord is among the best in the country at helping patients recover and return to the highest quality of life. From simple to catastrophic situations, we bring together all of our clinical resources to deliver the best possible outcomes.

By offering a continuum of care from inpatient to outpatient services, Gaylord can meet the needs of our patients' through every stage of recovery.
