EXPERTS IN Neurological Rehabilitation

Gaylord Neurological Rehabilitation is offered at Gaylord Outpatient Services in Wallingford, CT.

Gaylord has established a national reputation for treating stroke, brain injury, spinal cord injury and many complex medical conditions. We are the only LTACH provider in CT accredited by CARF (Commission on Accreditation of Rehabilitation Facilities) for outpatient and inpatient care.

Neuro Rehab at Gaylord includes **core practices such as physical, occupational, and speech therapy.** It also frequently involves a physiatrist - a physician specializing in physical medicine and rehabilitation. **Overall, Gaylord Outpatient Services offers 30+ programs** for a wide range of neurological and medical conditions.

In a larger context, **neurological diseases and disorders – both common and uncommon – are on the rise,** affecting nearly one third of the U.S. population. Because of Gaylord's exclusive focus and deep experience in advanced rehabilitation, **we have the right resources in place** to address nearly any neurological issue.

Gaylord Neuro Rehab: KEY POINTS

- **Focused on all neurological conditions** resulting from disease or injury, with an emphasis on restoring function and returning patients to the best quality of life possible.
- **Physical therapy** is used to improve movement, strength, mobility, and balance.
- **Occupational therapy** helps patients develop or relearn activities of daily living (ADLs).
- **Speech and language therapy** assesses memory, language formation, voice and swallow abilities, and works to improve speaking, reading, writing and comprehension.
- **Many other therapies, programs, and specialists** are used in the course of treatment, including care management, psychology, nutrition, and respiratory therapy.

Gaylord Neuro Rehab IN ACTION

- **You can schedule an appointment with our helpful staff located at Gaylord Outpatient Services** in Wallingford, CT. If you have recently seen your primary care provider or a specialist, ask them for a referral.
- **During your first appointment, you'll meet with a therapist** who will listen to you, talk with you, and start to shape your course of rehabilitation. If your healthcare provider or a specialist made a referral, we will consult with them. **A care team will be formed** and a course of therapy defined.
- **Our Neurological Rehabilitation staff is trained to treat a wide range of conditions, including:**

ALS

Amputation

Brain Injury

Cerebral Palsy

Chronic pain

Concussion

Guillain-Barré Syndrome

Multiple Sclerosis

Muscular Dystrophy

Myasthenia Gravis

Parkinson's

Peripheral neuropathy

Post-Polio syndrome

Spinal Cord Injury

Stroke

Vestibular disorders

Neurologically based vision problems
